- Great team working skills, with the ability to share constant knowledge.
- Ability to analyse the big picture and detect how it will affect other aspects of the product and how it will evolve in the future;
- Good communication skills to interact with different stakeholders among internal teams.
Extra credit if you have:
- Experience integrating with external systems;
- Experience with Grape library;
- Redis and Sidekiq Experience;
- You maintain or contribute to an open-source library;
- Experience working with microservices;
- Experience with Sinatra;
- DevOps knowledge;
- Knowledge of possible performance improvements both on the application and database sides.
