Job Description

Responsibilities:

- **Define** and manage the product roadmap, aligning with the company's vision and objectives.
- **Collaborate** with technical and business teams to ensure the delivery of high-quality products.
- **Analyze** market trends and user needs to identify opportunities for improvement and innovation.
- **Create** and manage product backlogs, ensuring task prioritization based on customer value and strategic alignment.
- **Conduct** sprint review and planning meetings, facilitating communication and collaboration among teams.
- **Monitor** product performance, using metrics to inform decisions and continuous improvements.

Requirements:

Bachelor's or Master's degree in Computer Science, Engineering, or a related field. Minimum of 5 years experience as a **Product Owner or similar role**. Strong knowledge of **Agile methodologies** and product management practices. Experience in managing complex digital products, **preferably in the pharmaceutical or healthcare** sector. **Proficiency in English**, both spoken and written. Excellent communication and leadership skills.
