## Job Description

---

No specific prior working experience is required.

### Responsibilities:

- **Organize** the smoothing of production
- **Organize all the OF** (fabrication orders)
- **Ensure that the production planning is on time** by anticipating all the elements which can have an impact on the production planning and take action in autonomy to avoid any delays (raw material, stock, time of OF, humanresources...)
- **Communicate in autonomy** about all the subjects concerning delivery time with the Groups for internal market and commercial department for external market
- **Realize, animate and validate** the weekly master planning production by operational team
- **Alert, with the maximum anticipation**, about possible delays and suggest exceptional actions (costly action as organizing a special transport for example) to meet customers' requirements to the operation director
- Suggest ideas to **improve the planning of production** (having raw material in stock, production & logistic productivity...) and validate with the production manager

### Requirements:

- Knowledge of **ERP system**
- **English mandatory** / French appreciated
- Knowledge of **production and logistic flow**
- Knowledge of **mechanical engineering appreciated**
- Very **well organised** and makes suggestion to improve situations
- Know how to handle pressure

### About the company:
