Job Description

Responsibilities:

- Collaborate with our team to design and develop scalable and reliable web applications;
- Implement and maintain new features on our platform, making testing a priority;
- Maintain clear documentation of your work and implement quality assurance checks.

Requirements:

- You are a quick-learning, resourceful and reliable individual who appreciates working in a fast-paced environment where you can grow a lot.
- You have at least at least 4 years of experience building web applications using backend frameworks (e.g. NodeJS, Django) and NoSQL databases (e.g. MongoDB, CouchDB).
- Some knowledge of frontend frameworks (e.g. ReactJS, VueJS) and fluency in English is preferred.

About the company:

Airbot Technology Limited (<https://www.airport.ai/>) is the worlds leading customer service platform for the airport industry. We have developed a software-as-a-service platform allowing airports to communicate efficiently with passengers on their websites, mobile applications or 3rd-party messaging applications. We are currently working with more than 80 airports around the world, including Frankfurt, London Gatwick, Lisbon and Sydney airports.
