Deadline : Mar 21, 2024

Published : Feb 22, 2024

Employment Status : Freelance

Experience : 5 - 10 Years

Salary : To be defined

Gender : Any

Career Level : Top Level

Qualification :

Job Description

Full remote.

Responsibilities:

- **Design, implementation and testing** of high-performance microservices in Java using state-of-the-art methods and technologies.
- Have your share of ownership of incidents and issues tracking, as well as proposing improvements to the current applications.
- **Advocate** an engineering culture of quality, good development principles and innovation from inside your team. Contribute with the creation and maintenance of technical documentation, including System Design and RFC documents.
- **Collaborate with testers and other peers**, and be willing to mentor team members when necessary.

Requirements:

- A solid foundation in software engineering **bachelors degree preferred with 5+ years of commercial experience**.
- **Full-stack Java development experience** including **knowledge of common tooling** such as Spring Boot and JPA/Hibernate.
- **Knowledge of traditional software development processes** and tools, including Maven/Gradle, Git, JIRA, Confluence, Code Reviews and CI/CD
- **Hands-on experience developing microservices** using modern technologies such as Apache Kafka, REST APIs, containerization (Docker, Kubernetes), and cloudbased infrastructure (GCP or another)
- Experienced in taking ownership of tasks, commitments, quality, and contributing to a culture of continuous improvement in an Agile/Scrum environment.
- **French Speaker, English** language skills at professional level (**minimum B2**).

About the company

The company is an **innovative European out of home deliveries company**, revolutionizing the way parcels are delivered to customers. With **operations across several countries**, our network of intelligent lockers provides customers with a fast, convenient, and secure delivery option. With **over 10,000 employees worldwide**, our client is one of the largest out of home delivery providers in Europe, committed to providing sustainable and efficient delivery solutions to meet the evolving needs of customers in today's rapidly changing landscape.
