Job Description

Responsibilities:

- **Design, implementation and testing** of high-performance microservices in Java using state-of-the-art methods and technologies.
- Have your share of ownership of incidents and issues tracking, as well as proposing improvements to the current applications.
- **Advocate** an engineering culture of quality, good development principles and innovation from inside your team. Contribute with the creation and maintenance of technical documentation, including System Design and RFC documents.
- **Collaborate with testers and other peers**, and be willing to mentor team members when necessary.

Requirements:

- **10 years minimum as a Linux Sysadmin including**
- **5+ solely on Linux environment**
- Experienced working on large Linux environment (500 to 10'000+ servers)
- Keen on automation on Ansible, bash ...
- Redhat **(RHEL) certification** is highly valued
- **Solid English required**, Portuguese or French are a plus
- **2 days per week** at the office in Porto
- On calls & overtimes expected every now and then
- **EU documentation mandatory**

About the company

Based in Porto, Natixis Center of Expertise mission is **to transform traditional banking by developing innovative solutions for Groupe BPCE business**, operations and work culture worldwide, as a key driver of the company's culture of agility and innovation: a perfect fit in Portuguese labour culture. **Teams of IT, Banking Support Activities and Compliance work in an integrated, inclusive and transversal way**, supporting all the business lines and country platforms. Now counting more than 2.000 employees, **Natixis in Portugal is the best combination of a "start-up mindset", given its multicultural and inclusive environment**, culture of proximity and participation and dynamic working methodologies, based on agility, collaboration and creativity, with a large, solid structure, founded on career management, including international mobility, financial security and robust processes, along **with unlimited learning opportunities**. In other words, small enough to keep our entrepreneurial spirit, big enough to deliver projects at a global scale.
