Job Summary

Vacancy :
Deadline : Nov 25, 2024
Published : Oct 25, 2024
Employment Status : Full Time
Experience : 3 - 5 Years
Salary : To be defined
Gender : Any
Career Level : Mid Level
Qualification :

Responsibilities
• Develop high-quality, **scalable solutions under tight deadlines** to meet the needs of our demanding users
• Tackle challenging production issues when they arise, providing expert **3rd level support** to resolve critical problems
• Collaborate closely with business stakeholders and IT teams to gather requirements and ensure alignment with business goals
• Contribute to **software architecture and design decisions**, ensuring our solutions are robust and scalable
• Enhance and maintain a **robust automated test suite**, ensuring high test coverage
• Engage in continuous improvement initiatives, embracing best practices and innovative solution

Requirements:
• Technical Excellence:
Proficiency in building scalable applications with **ASP.NET/C#**. Strong understanding of algorithms, data structures, and API development
• Problem-Solving Prowess: Ability to **tackle complex challenges** with innovative solutions
• Curiosity and Eagerness to Learn: Passion for learning and adapting to new technologies, especially in a fast-paced environment
• Collaboration: Experience working **in agile teams and a strong desire to collaborate** with peers and business stakeholders
• Database Knowledge: Familiarity with both **relational and non-relational database systems**
• Communication Skills: Fluency in **English**, with the ability to communicate complex technical concepts clearly

Nice to have:
• Experience with capital markets
• Experience with position-keeping systems like Sophis
• Familiarity with design thinking techniques and iterative sprints
• Experience with messaging systems integration (e.g. RMQ, Kafka)

The company:
It is a fintech company with a leading marketplace for structured investment solutions.
